Suominen has a strong global presence

- Production site
- Piloting facility
- Head office

7
locations on
three continents

2
pilot lines

**Net sales by business area
2023**

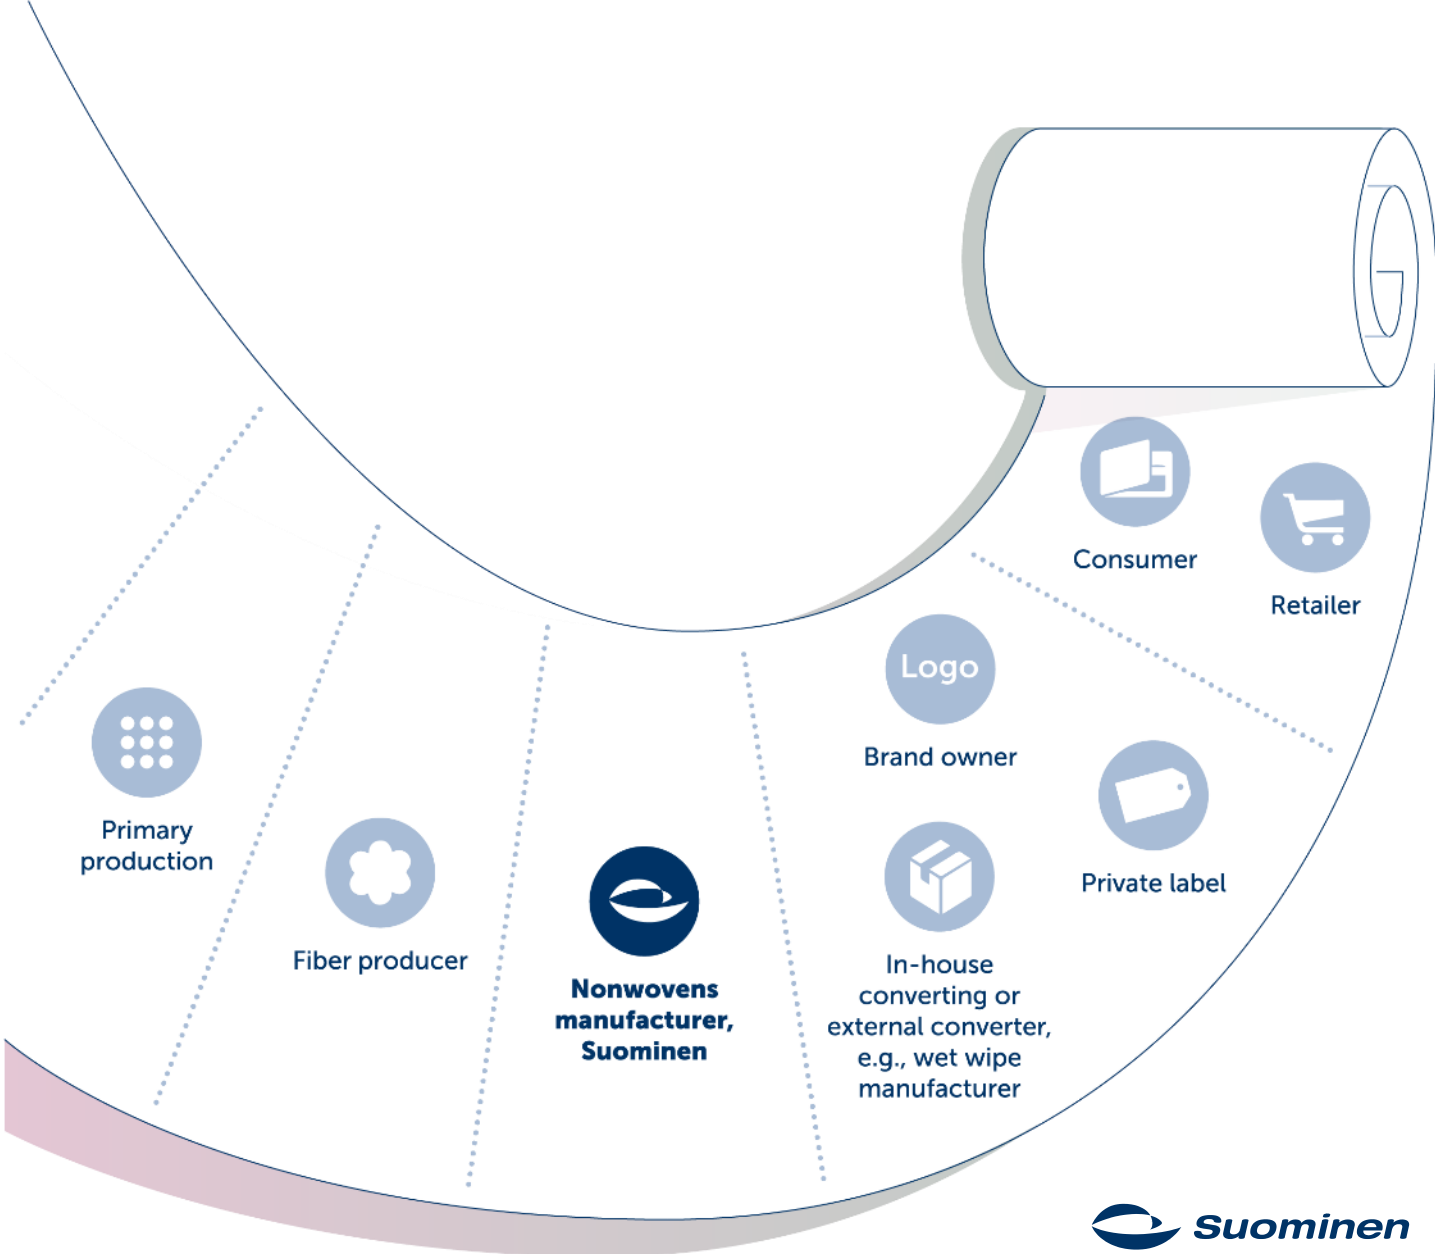

Our main market areas are Europe and North America. We also hold a strong position in the South American markets.

Suominen's position in the nonwovens value chain

Suominen is the global market leader in nonwovens for wipes, and among the largest spunlace nonwovens producers in the world.

The global demand for nonwovens is growing continuously. The growth depends mainly on consumer demand, which is a combination of the general economic situation and consumers' confidence in the development of their personal finances.

INVESTMENT HIGHLIGHTS

Nonwovens markets are growing in all regions

Legislation and consumer behavior are driving the need for more sustainable products and we are very well placed to respond to this growing demand

Our organization and strategy give us an excellent basis to continue to develop the company further

FINANCIALS

FINANCIALS

Net sales, EUR million

Comparable EBITDA, EUR million

Cash flow from operations, EUR million

Quarterly financials

Net sales, EUR million

Comparable EBITDA, EUR million

Cash flow from operations, EUR million

President & CEO's review – Q2/2024

During the second quarter of 2024, our net sales grew by 5% from the comparison period and were EUR 118.7 million (112.7). Sales volumes increased from comparison period, however, sales prices decreased driven by the lower raw material prices.

Our ability to innovate and meet market needs is reflected in the share of net sales from new products launched in the last three years, which continued on a very good level and exceeded 37% in the first half of the year.

We were able to improve our quarterly comparable EBITDA to EUR 5.0 million (2.7), supported by increased sales volumes, especially in Americas, and better sales margins.

We have been focusing on our commercial and operational excellence, especially on the production efficiency, and we have seen gradual improvements. We are expecting this progress to continue going forward.

As we announced in early May, we are investing to further improve our capabilities in sustainable products by enhancing and upgrading one of our production lines in Bethune, South Carolina, USA. With this investment we strengthen our position as the leader in sustainable nonwovens in the Americas market.

The investment is proceeding as planned, targeting commercialization on H1/2025.

As part of our ongoing transformation journey, we initiated at the end of May a restructuring program to reposition Suominen towards profitable growth. We expect the program to generate annualized savings of EUR 1.5 million. This program is a continuation of the transformation we initiated last year with the new operating model, and it will support our ability to achieve necessary financial and process improvements as we move forward.

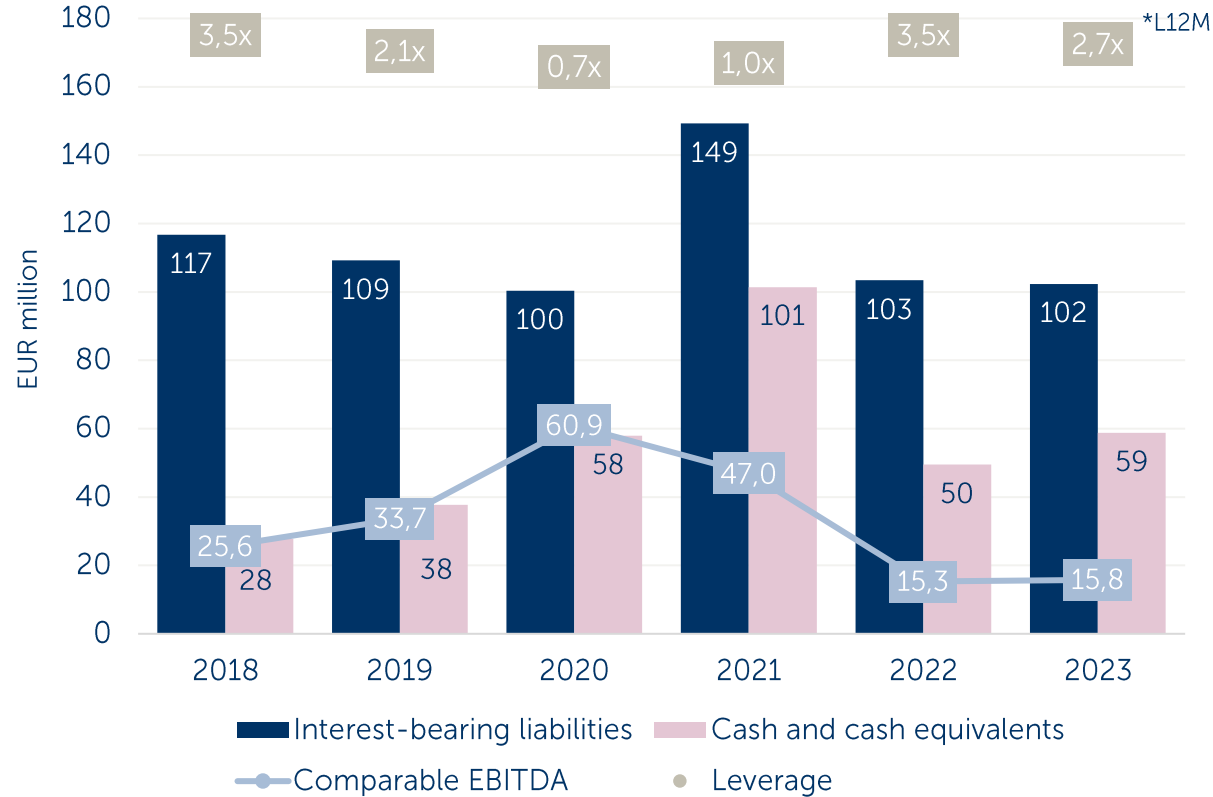

Generally, Suominen's target market is rather stable with some uncertainty related to the global economic sentiment. In the short term we do not see any major changes in the target market.

Tommi Björnman
President & CEO

Equity ratio stable

Leverage multiple & components

Equity ratio

- The leverage multiple has varied a lot driven mainly by change in EBITDA
- Suominen has a EUR 100m of revolving credit facility agreement that matures in Jul 2026 and EUR 50m of bond outstanding that matures in June 2027

OUTLOOK

AUGUST 9, 2024

Suominen expects that its comparable EBITDA (earnings before interest, taxes, depreciation and amortization) in 2024 will increase from 2023. In 2023, Suominen's comparable EBITDA was EUR 15.8 million.

Financial targets

2020–2025

How to get there?

Growth

- Focus on fast-growing sustainable products
- Innovation and launching new products to capture market share
- Targeted investments to improve capabilities and increase capacity

Profitability

- Effective utilization of production lines
- Margin improvement through new products as well as production and raw material efficiency
- Continued fixed cost control

Gearing

- Balanced investment plan
- Healthy cash flow from operations

STRATEGY

Mission

Enabling our customers to win by creating quality nonwovens

Vision

Frontrunner for nonwovens innovation and sustainability

Strategy: Growth and profitability through sustainability, customer focus and efficiency

We will grow by creating innovative and more sustainable nonwovens for our customers and improve our profitability through more efficient operations and a high performance culture. Our main focus is on wipes.

We will strengthen our capabilities in Europe and Americas, and evaluate opportunities in Asia.

Strategic focus areas

Strategy highlights in 2023

Investment project to further strengthen our capabilities in sustainable nonwovens in Nakkila, Finland

Closure of Mozzate plant in Italy to improve the competitiveness of European business

Share of new products exceeded **35%** of net sales

New organization model to support our profitable growth journey

Sales of sustainable products increased by **79%***

12 sustainable product launches

Silver rating in our second EcoVadis sustainability assessment

* Compared to base year 2019

SUSTAINABILITY AND R&D

SUSTAINABILITY

Sustainability is at the core of our strategy and business. Our vision is to be the frontrunner in nonwovens innovation and sustainability. Sustainability is an integral part of all our operations.

Sustainability Agenda 2020–2025

Suominen's sustainability agenda crystallizes the sustainability themes and targets for the strategy period 2020–2025. The agenda focuses on four themes, People and safety, Sustainable nonwovens, Low impact manufacturing and Corporate citizenship. The progress in different areas is regularly monitored.

Our sustainability agenda 2020–2025 and KPI's

- Zero LTA (lost time accidents)
- Engagement index 73% by 2025

People and safety

We invest in increasing employee engagement.
We continue to build a high performance culture.
We continue to strengthen our safety culture.

Sustainable nonwovens

We are the frontrunner in sustainable nonwovens.

- Over 10 sustainable product launches per year
- Sustainable products: 50% increase of sales by 2025 (base year 2019)

Reduction targets are set per ton of product

- 20% reduction of energy consumption
- 20% reduction of process waste to landfill
- 20% reduction of water intake
- 20% reduction of emitted greenhouse gas emissions (base year 2019)

Low impact manufacturing

We continuously strive to decrease environmental impacts of our operations

Corporate citizenship

We promote responsible business practices in our operations and supply chain.
We communicate openly and transparently about our operations.

- Renewed Code of Conduct coverage: 100% of existing employees and new hires
- Raw material suppliers assessed against supplier code (based on risk assessment)

Progress in sustainability targets in 2023

- 6 lost-time accidents (LTA)
- Engagement index 66%

Reduction targets are set per ton of product. Results in 2023:

- 0.7% reduction in water consumption*
- 14.9% reduction in greenhouse gas emissions*
- No progress made in energy consumption and process waste to landfill reduction targets

*compared to base year 2019

People and safety

We invest in increasing employee engagement.
We continue to build a high performance culture.
We continue to strengthen our safety culture.

Sustainable nonwovens

We are the frontrunner in sustainable nonwovens.

Low impact manufacturing

We continuously strive to decrease environmental impacts of our operations

Corporate citizenship

We promote responsible business practices in our operations and supply chain.
We communicate openly and transparently about our operations.

- 12 sustainable product launches
- Sustainable products: 79% increase of sales from base year 2019

- Renewed Code of Conduct coverage: 94% of all employees trained by the end of 2023
- Supplier assessment process established

Sustainable Development Goals - Suominen

The Sustainable Development Goals (SDG) adopted by the United Nations in 2015 define international sustainable development focus areas and goals. We have identified three SDG's which cover the areas where we can make the biggest contribution and our sustainability agenda guides our work towards these goals.

We promote responsible business practices throughout the value chain and we do not tolerate any kind of slavery, forced or child labor or human trafficking in our own or our suppliers' operations

We promote equal opportunities for all. Our principle is "equal pay for equal contribution". A safe workplace is one of our top priority and we are continuously striving to improve our safety culture to achieve an accident free workplace.

Our goal is to use natural resources as efficiently as possible and strive for minimization of waste in our production and finding alternative outlets for non-recyclable waste.

With our product offering we contribute to this goal by taking into account the whole value chain in our product design in order to decrease any negative impacts on the environment. We report our activities and progress towards our sustainability goals publicly.

We are committed to reduce greenhouse gases from our operations by improving our energy efficiency and finding alternative low-carbon energy sources.

With our product offering we are contributing to this goal by calculating carbon footprint of our products including the whole value chain and developing solutions with smaller impact on climate.

Sustainability ratings and initiatives

EcoVadis

Suominen scored 68/100 points in the assessment in 2023 and received a Silver level rating (silver level: 59–69 points) The result places Suominen in the top 5% of companies in the manufacture of other textiles industry rated by EcoVadis.

ISS ESG: C rating

Suominen received C rating (medium) from Institutional Shareholder Services (ISS) in July 2024. Companies are rated, from D- to A+, on their sustainability performance.

CDP: C rating

Suominen has C rating from Carbon Disclosure Project (CDP). Scoring goes from D- to A. Suominen's score was C in 2023. Suominen was invited to do the survey by a partner.

WE SUPPORT

UN Global Compact

Suominen is committed to the UN Global Compact corporate responsibility initiative.

Global Reporting Initiative

Suominen reports according to the Global Reporting Initiative (GRI) standards. Suominen's sustainability information for 2023 was assured by an independent assurance provider.

Sustainability defined by Suominen

COMPOSTABLE

Nonwovens are compostable according to the international compostability standards and are made of only fibers from renewable resources.

RENEWABLE

Nonwovens made of variety of renewable materials from biobased plastics to natural fibers.

MOIST TOILET TISSUE

Nonwovens are biodegradable and dispersible in water. Products comply or exceed the latest industry flushability standards.

PLASTIC FREE

Nonwovens made of biodegradable fibers of natural origin, such as lyocell, pulp and cotton.

RECYCLED CONTENT

Nonwovens with at least 15% recycled fibers, including thermoplastic fibers like rPET from recycled origin or cotton in case recycled from post-industrial source (pre-consumer).

R&D

Suominen's vision is to be the leader in nonwovens innovation and sustainability. Sustainability is also one of the key themes in our R&D.

Suominen is a pioneer in producing sustainable nonwovens, and our versatile R&D team has excellent know-how in sustainable fibers. Our pilot lines at Nakkila and Windsor Locks sites support our innovation work by, for example, enabling testing of prototypes.

Pioneer in sustainable products

BIOLACE® sustainable product portfolio since 2007

We invented the wetlaid spunlace category for dispersible moist toilet tissue – HYDRASPUN® product family

Strong R&D

15 R&D professionals

Focus on sustainability and customization

Excellent know-how in sustainable fibers

New Fiber Center and Green Lab

Pilot lines to support R&D and fast go-to-markets

Technology fit to sustainable nonwovens

7 plants – all capable of using sustainable raw materials

Pulp capability

We are able to tailor-make our products according to customers' different definitions of sustainability

New Fiber Center

Target is to collaborate and onboard novel sustainable fibers at Suominen

- Pilot and testing facilities in Finland and US
 - Carding and wetlaid
 - Bonding: spunlaced, thermal bonding, composites
 - In future adding pulp capabilities for spunlace
- Prototyping
- Partnerships

Examples of fibers in the pipeline:

- Bast fibers (hemp, flax, nettle)
- Regenerated cellulose fiber
- Native cellulose man-made fiber
- Recycled pulp

MARKET HIGHLIGHTS

Nonwovens markets are growing in all regions

We are the leaders both in the spunlace and wipes nonwovens markets

The demand for wipes is expected to remain above pre-COVID-19 levels

Legislation and consumer behavior are driving for more sustainable products and we have excellent opportunities to meet this growing demand

Demand for sustainable alternatives is growing

Legislation and consumer behavior are driving for more sustainable products

77% of consumers say that sustainability is important to them

Over 50% of consumers believe they can make a difference through their everyday choices and actions in 2022

Trust matters, consumers are looking for trustful brands and turns digital media into source information. Therefore, it's important to maintain brand credibility.
